

REIMAGINING PHILANTHROPY WITH BLOCKCHAIN

EDUCATION COURSE FOR PHILANTHROPISTS AND LEADERS

How can we achieve our SDGs, using the power of blockchain?

Our 1-day education course will provide tailored information on how you can harness this technology to deliver greater social impact to society's most vulnerable, individuals, in alignment with the UN's 2030 Agenda for Sustainable Development.

Our course is structured as follows:

MODULE 1 - INTRODUCTION TO BLOCKCHAIN TECHNOLOGY

Our first module will introduce the basics of blockchain, including how it securely records and verifies data, how it has historically evolved, and its economic significance in reshaping our global economy.

MODULE 2 - BLOCKCHAIN FOR SDGs

Our next section will highlight how blockchain can be harnessed to achieve your specific SDGs, using case studies to discuss key industry learnings, failures, opportunities and challenges.

MODULE 3 - IS BLOCKCHAIN RIGHT FOR ME?

Our final section will cover blockchain-use practicalities, by comparing it against alternative databases, before introducing you to an exclusive *Blockchain Evaluation Checklist* to assess suitability for your own needs.

ABOUT THE ORGANISATION

Our mission at the Blockchain Philanthropy Foundation (BPF) is to actively support humanitarian initiatives worldwide, using blockchain. Our Education pillar strives to generate awareness of how it can be used by philanthropists, nonprofits and entrepreneurs to deliver social impact as a trust-manufacturing machine.
